Scanner Instructions

MOTIONCO

CAUTION - Please read the following before using the turntable.

Please make sure objects are stable and well balanced on the table.

Please choose an appropriate speed e.g. for delicate objects a slow table speed is advisable.

Ensure that camera release cable is clear of the table.

Make sure the camera lens is not too close or likely to touch the table or the objects on the table.

Setting up your scanner for use.

Plug your camera cable into the camera remote port of your camera.

Plug the camera cable to the camera port on the left side of the scanner.

Plug in the power supply on the right side of the scanner and switch on.

The screen will come on after approx. 5 to 10 seconds.

Switch on your camera.

Place your object safely on the centre of the table.

If you wish to change any of the settings, follow the instructions below, or

Press the "Start" button once you are ready to begin.

```
SCAN
Total shots:        60
Remaining shots:    30
Shot Delay (secs):  2
Speed:              Med

       Set    Jog    Start
```
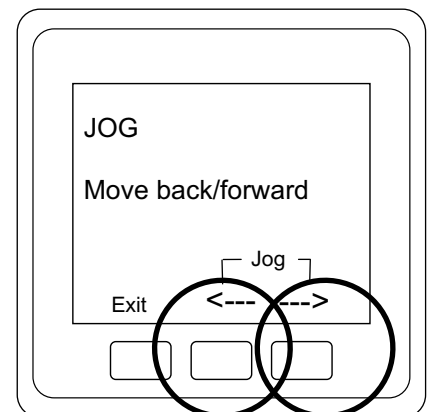

Using the Jog function

The turntable can be jogged forwards and backwards one position of your number of shots at a time.

To use this function, press the Jog button on the main screen.

Press the arrow buttons to jog the turntable one position at a time.

Press "Exit" to return to main screen.

```
SCAN
Total shots:        60
